

Christophe da Silva

UX/Product Design Director

With two decades of working in the digital industry, I have expertise in leading UX/Product Design, Interaction Design, and building digital products.

Experience

UX Design Director at AREA 17. Paris, France then Brooklyn, NY. Oct. 2015 — Present

- Contributed directly to shape the overall strategic and design process around collaborative sprints that foster cross-disciplinarity.
- Led significant web product redesigns through streamlined structures and interaction designs aligned with user needs.
- Clients include: Getty, The New York Times Company, Art Institute of Chicago, Princeton University Press, Aspen Ideas Festival, New York Road Runners, and Engadget.

UX Designer & Software Engineer, Freelance. Paris, France. Oct. 2013 — Sep. 2015

- Released “Phallaina”, a graphic novel app which received multiple awards for its unique reading experience, thanks to a completely custom set of tools, creative workflows, and a rendering engine I developed using C++ and OpenGL.
- Led the UX redesign effort on multiple web projects for renowned studios and clients: McCann Paris, AREA 17, Soleil Noir, Isobar. Clients include: Opéra de Paris, Peugeot, Cisco Design Studio, Arte, France Télévision, Axa, Société Générale, BEL Group.

Lead UX Designer & Tech Lead at Soleil Noir Studio. Paris, France. Apr. 2012 — Oct. 2013

- Soleil Noir was one of the most awarded digital studios in France, I extended their capabilities by bringing iOS development skills and UX design methodologies to lead major mobile projects for our clients.
- Successfully deployed a high-traffic web mobile catalog for Nespresso over 26 market countries by leading the technical and Interaction design aspects.
- Helped to confirm Nespresso high-standards digital presence by contributing to their very first catalog app, through iOS development and Interaction design.

Creative Developer, Freelance. Paris, France. Jan. 2009 — Apr. 2012

Delivered creative and experimental iOS & web marketing apps for Nespresso, Toyota France, Lancome, Biotherm Clarins, Microsoft/MSN.

Tech Lead, Malinea. Paris, France. Feb. 2004 — Jul. 2008

Successfully deployed and maintained a cashback based e-commerce solution for a french startup with more than 400k users, by leading the technical, development and information architecture aspects.

Full Stack Web Developer at Framfab. Paris, France. Oct. 2001 — Feb. 2003

Contributed as a backend/frontend developer with a designer mindset at Framfab (then LBI International), a top leading web agency of the 2000 era in Europe.

Brooklyn, NY
